

Azure Notebooks

Seth Juarez
@sethjuarez
seth.juarez@microsoft.com

A wide-angle photograph of a University of Cambridge scene. In the foreground, a river flows with several punts carrying people. A large, well-maintained green lawn stretches across the middle ground, where a group of people is walking. In the background, a long, multi-story building with many windows and chimneys is visible, along with a prominent Gothic-style church tower on the right side. The sky is overcast with grey clouds.

University of Cambridge
increases student learning with
open source Azure service

“By using Azure Notebooks, students aren’t hindered by installation issues. They can just start working straight away. All they need is a decent browser and an Internet connection.”

—Dr. Garth Wells: Hibbit Reader in Solid Mechanics, Department of Engineering
University of Cambridge
